

src

The diagram shows a source directory structure. A large light blue rectangle with a dashed border represents the 'src' directory. Inside this rectangle, at the top, is the text 'src'. Below this, there is a smaller light blue rectangle with a solid dark border. Inside this inner rectangle, there are three elements: a small blue box with a solid border containing the text 'geo', a medium blue box with a solid border containing the text 'functions', and the text 'primitives' to the right of the 'functions' box.
