

hmap::Function

```
graph BT; A[hmap::BumpFunction] --> B[hmap::Function]
```

The diagram illustrates a relationship between two types. At the bottom is a gray rectangular box containing the text 'hmap::BumpFunction'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text 'hmap::Function'. This visualizes 'hmap::BumpFunction' as a specialization or implementation of the 'hmap::Function' interface.
