

hmap::Function

```
graph BT; A[hmap::WaveSquareFunction] --> B[hmap::Function];
```

The diagram illustrates a relationship between two function types. At the bottom, a gray box contains the text 'hmap::WaveSquareFunction'. A blue arrow points vertically upwards from this box to a white box at the top, which contains the text 'hmap::Function'. This indicates that 'hmap::WaveSquareFunction' inherits from or is a specialization of 'hmap::Function'.
